 **BotFather** 

6.02.20

Choose a bot from the list below:

Global search results

I can help you create and manage Telegram bots. If you're new to the Bot API, please [see the manual](#).

You can control me by sending these commands:

[/newbot](#) - create a new bot

[/mybots](#) - edit your bots [beta]

Edit Bots

[/setname](#) - change a bot's name

[/setdescription](#) - change bot description

[/setabouttext](#) - change bot about info

[/setuserpic](#) - change bot profile photo

[/setcommands](#) - change the list of commands

[/deletebot](#) - delete a bot

Bot Settings

[/token](#) - generate authorization token

[/revoke](#) - revoke bot access token

[/setinline](#) - toggle [inline mode](#)

[/setinlinegeo](#) - toggle inline [location requests](#)

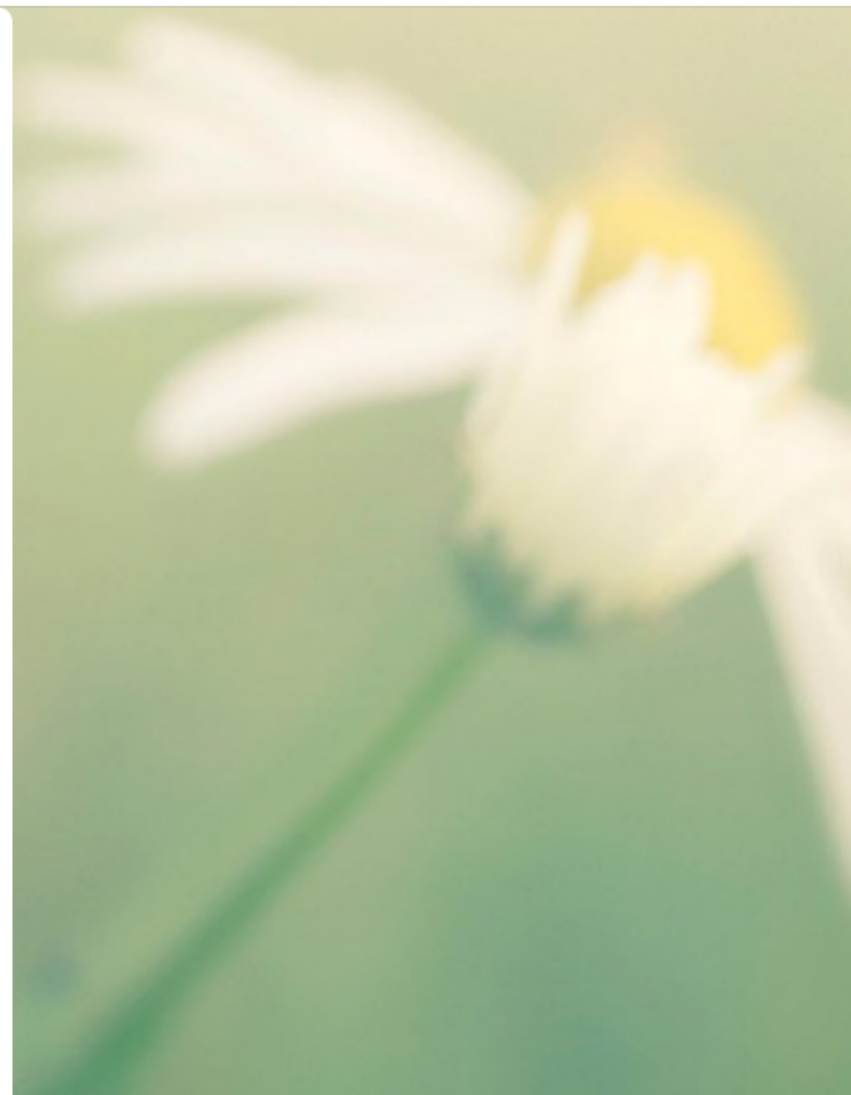

[/setinlinefeedback](#) - change [inline feedback](#) settings

[/setjoiningroups](#) - can your bot be added to groups?

[/setprivacy](#) - toggle [privacy mode](#) in groups

Games

[/mygames](#) - edit your [games](#) [beta]

[/mygames](#) - edit your [games](#) **[beta]**

[/newgame](#) - create a new [game](#)

[/listgames](#) - get a list of your games

[/editgame](#) - edit a [game](#)

/newbot create a new bot

/newbot

/newbot 10:55 ✓✓

Alright, a new bot. How are we going to call it? Please choose a name for your bot.

10:55

Alright, a new bot. How are we going to call it? Please choose a name for your bot.

10:55

test_bot_mt 10:56 ✓✓

Good. Now let's choose a username for your bot. It must end in `bot`. Like this, for example: TetrisBot or tetris_bot.

`bot`. Like this, for example: TetrisBot or tetris_bot.

10:56

Sorry, this username is already taken. Please try something
different.

10:57

Done! Congratulations on your new bot. You will find it at
t.me/user2837467823642_bot. You can now add a description,
about section and profile picture for your bot, see [/help](#) for a list of
commands. By the way, when you've finished creating your cool
bot, ping our Bot Support if you want a better username for it. Just
make sure the bot is fully operational before you do this.

Use this token to access the HTTP API:

Keep your token **secure** and **store it safely**, it can be used by
anyone to control your bot.

For a description of the Bot API, see this page:
<https://core.telegram.org/bots/api>
